Notice of Public Meeting for TPDES Permit for Industrial Wastewater Amendment Permit Number WQ0004086000

APPLICATION. Clean Harbors San Leon, Inc., 2700 Avenue S, San Leon, Texas 77539, which operates the Clean Harbors Recycling Facility, a recycling and storage facility that handles oily waste from the petroleum refining and petrochemical industries, has applied to the Texas Commission on Environmental Quality (TCEQ) for a major amendment to Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0004086000 to authorize the discharge of treated process wastewater and treated contaminated stormwater at a daily average flow not to exceed 105,000 gallons per day via proposed internal Outfall 101. The draft permit authorizes the discharge of stormwater associated with industrial activity and previously monitored effluent (from internal Outfall 101) on an intermittent and flow-variable basis via Outfall 001.

The facility is located at 2700 Avenue S, near the intersection of 27th Street and Avenue S, approximately 3/4 mile east of State Highway 146 at Dickinson Bayou, in San Leon, Galveston County, Texas 77539. The effluent is discharged to a drainage ditch; thence to an unnamed tidal tributary of Dickinson Bayou Tidal; thence to Dickinson Bayou Tidal in Segment No. 1103 of the San Jacinto-Brazos Coastal Basin. The unclassified receiving waters have minimal aquatic life use for the unnamed ditch and high aquatic life use for the unnamed tidal tributary. The designated uses for Segment No. 1103 are high aquatic life use and primary contact recreation.

In accordance with Title 30 Texas Administrative Code Section 307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in the unnamed tidal tributary or Dickinson Bayou, which have been identified as having high aquatic life uses. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received.

The TCEQ Executive Director has reviewed this action for consistency with the Texas Coastal Management Program (CMP) goals and policies in accordance with the regulations of the General Land Office and has determined that the action is consistent with the applicable CMP goals and policies. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=29.469722&lng=-94.966666&zoom=13&type=r>

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements.

PUBLIC COMMENT/PUBLIC MEETING. A public meeting will be held and will consist of two parts, an Informal Discussion Period and

a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

Monday, January 25, 2016 at 7:00 PM

Johnson Community Center

4102 Main Street

La Marque, Texas 77568

Revised Notice of Receipt of Application and Intent to Obtain Municipal Solid Waste Permit Major Amendment Proposed Permit Number 2256a

APPLICATION. Southwaste Disposal, LLC, 9575 Katy Freeway, Suite 130, Houston, Harris County, Texas 77024, owner and operator of a liquid waste processing facility, has applied to the Texas Commission on Environmental Quality (TCEQ) for a Type V permit major amendment. The major amendment requests authorization to

increase the permitted processing and storage capacity of the facility and to make refinements to the existing liquid waste processing facilities within the constructed building. The Southwaste Disposal Dallas Facility is located at 525 South 6th Avenue, Mansfield, Tarrant County, Texas 76063. The application was received by TCEQ on November 9, 2015. The permit application is available for viewing and copying at the Mansfield Public Library, 104 South Wisteria Street, Mansfield, Tarrant County, 76063-2424, and may be viewed online at <http://www.biggsandmathews.com/permits.php>. The following link which leads to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice: <https://www.tceq.texas.gov/assets/public/hb610/index.html?lat=32.55417&lng=-97.15283&zoom=13&type=r>. For exact location, refer to application.

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.

CHANGE IN LAW. The Texas Legislature enacted Senate Bill 709, effective September 1, 2015, amending the requirements for comments and contested case hearings. This application is subject to those changes in law.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing. A person who may be affected by the facility is entitled to request a contested case hearing from the commission. A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and permit number; the location and distance of your property/activities relative to the facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period, and the statement "(I/we) request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility

or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn.

If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decision on the application submitted during the comment period.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. To be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION. All public comments and requests must be submitted either electronically at www.tceq.texas.gov/about/comments.html or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you choose to communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency's public record. For more information about this permit application or the permitting process, please call the TCEQ's Public Education Program, Toll Free, at (800) 687-4040. Notice and Opportunity to Comment on Requests for Consistency Agreement/Concurrence Under the Texas Coastal Management Program

On January 10, 1997, the State of Texas received federal approval of the Coastal Management Program (CMP) (62 Federal Register pp. 1439-1440). Under federal law, federal agency activities and actions affecting the Texas coastal zone must be consistent with the CMP goals and policies identified in 31 TAC Chapter 501. Requests for federal consistency review were deemed administratively complete for the following project(s) during the period of October 12, 2015 through December 21, 2015. As required by federal law, the public is given an opportunity to comment on the consistency of proposed activities in the coastal zone undertaken or authorized by federal agencies. Pursuant to 31 TAC §§506.25, 506.32, and 506.41, the public comment period extends 30 days from the date published on the Texas General Land Office web site. The notice was published on the web site on Friday, January 1, 2016. The public comment period for this project will close at 5:00 p.m. on Monday, February 1, 2016.

FEDERAL AGENCY ACTIONS:

Applicant: 3000 Houston Street Development

Location: The project is located in the Lower Laguna Madre, at 3000 Houston Street, in Port Isabel, Cameron County, Texas. The project can be located on the U.S.G.S. quadrangle map entitled: Port Isabel, Texas.

LATITUDE & LONGITUDE (NAD 83):

Latitude: 26.078899 North; Longitude: 97.210838 West

Project Description: The applicant proposes to reclaim, by filling, a portion of the property that appears to have been lost to erosion over the years prior to its acquisition. A total of 0.879-acre (14,880 cubic yards of sand; 2,100 cubic yards of that will be below the mean high tide line) of jurisdictional area would be involved in this project and

some of that area would be enhanced by creating a stone breakwater structure that would act to reduce energy created by wave action which currently adversely affects existing seagrass and oyster habitat onsite.

A 0.081-acre area of existing upland would be scraped down to create low marsh habitat. A total of 54 condominium units would be constructed on the site utilizing both existing uplands and the minimal amount of area needing to be reclaimed.

CMP Project No: 16-1115-F1
