Texas Water Code and Texas Health and Safety Code Settlement Notice

Notice is hereby given by the State of Texas of the following proposed resolution of an environmental enforcement lawsuit under the Texas Water Code and the Texas Health & Safety Code. Before the State may settle a judicial enforcement action under the Texas Water Code, the State shall permit the public to comment in writing on the proposed judgment. The Attorney General will consider any written comments and may withdraw or withhold consent to the proposed judgment if the comments disclose facts or considerations that include that the consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Texas Water Code and the Texas Health & Safety Code.

Case Title and Court: *State of Texas v. Magnum Blue Ribbon Feeds, Inc.*; Cause No. D-1-GV-13-001396, in the 201st Judicial District Court, Travis County, Texas.

Nature of the Defendant's Operations: Magnum Blue Ribbon Feeds, Inc., operated a plant near the City of Hereford that mined and processed calcium carbonate for use as an animal feed supplement. The State's suit alleges that Defendant violated its permit-by-rule for air emissions by failing to control dust emission from plant roads and work area, and by producing emissions with greater than 20% opacity. The State also alleges that dust emissions from the facility caused a nuisance to residents in the City of Hereford.

Proposed Agreed Judgment: The Agreed Final Judgment and Permanent Injunction orders Defendant to cease operating until it obtains a New Source Review Permit, and to pay the State of Texas civil penalties of \$130,000 and \$40,000 in attorney's fees.

For a complete description of the proposed settlement, the complete proposed Agreed Final Judgment and Permanent Injunction should be reviewed. Requests for copies of the judgment, and written comments on the proposed settlement, should be directed to Mark A. Steinbach, Assistant Attorney General, Office of the Attorney General, P.O. Box 12548, Austin, Texas 78711-2548, (512) 463-2012, facsimile (512) 320-0911. Written comments must be received within 30 days of publication of this notice to be considered.

Cancer Prevention and Research Institute of Texas

Request for Applications R-17.1-ETRA

Early Translational Research Awards

The Cancer Prevention and Research Institute of Texas (CPRIT) seeks applications from eligible organizations for applications for research projects addressing critically important needs related to the diagnosis,

prevention, and/or treatment of cancer. The objective of this award is to "bridge the gap" between promising new discoveries achieved in the research laboratory and commercial development by funding advancement toward IND clearance or investigational device exemption approval for the therapeutic, device, or diagnostic assay through activities up to and including preclinical proof-of-principle data that demonstrate applicability to the planned clinical scenario. The work funded under this RFA must be deemed sufficiently robust such that successful completion would result in identification of a "lead" compound, assay, or device that, as a next stage, could be taken into full development in compliance with ICH Guidelines and US regulatory guidance documents and regulations.

The goal of awards made in response to this RFA is to fund innovative cancer research from target identification to "lead candidate" stage, according to a defined Target Product Profile, that projects a clear path to full commercial development. This award allows the opportunity to develop proof-of-principle data necessary to bring promising cancer research projects to lead stage in preparation for full commercial development according to FDA regulations. Funding may be provided for intermediate steps according to established milestones (often referred to as "stage gates") consistent with those utilized by pharmaceutical/biotechnology therapeutic, diagnostic, and/or device companies for "target identification to lead" development (i.e., achievement of planned Target Product Profile [Draft Package Insert]) prior to full development activities.

Applicants may request a maximum of \$1,000,000 in total costs over a period of 1 to 3 years.

Applications will be accepted beginning at 7:00 a.m. Central Time on Monday, March 21, 2016, through 3:00 p.m. Central Time on Thursday, May 19, 2016. Only applications submitted via the CPRIT Application Receipt System (www.CPRITGrants.org) portal will be considered eligible for evaluation. CPRIT will not accept late applications or applications that are not submitted via the portal. A detailed Request for Applications (RFA) is available online at www.cprit.state.tx.us.

Individual Investigator Research Awards

The Cancer Prevention and Research Institute of Texas (CPRIT) seeks applications from eligible organizations for the Individual Investigator Research Awards grant mechanism for innovative research projects addressing critically important questions that will significantly advance knowledge of the causes, prevention, and/or treatment of cancer. The goal of awards made in response to this RFA is to fund exceptionally innovative research projects with great potential impact that are directed by a single investigator. Areas of interest include laboratory research, population-based research, translational studies, and/or clin-

ical investigations. CPRIT encourages applications that seek new fundamental knowledge about cancer and cancer development, as well as those attempting to develop state-of-the-art technologies, tools, and/or resources for cancer research, including those with potential commercialization opportunities. This award allows experienced or early career-stage cancer researchers the opportunity to explore new methods and approaches for investigating a question of importance that has been inadequately addressed or for which there may be an absence of an established paradigm or technical framework. CPRIT will look with special favor on new approaches to be taken or new areas of investigation to be explored by established investigators and on supporting the research programs of the most promising investigators at the beginning of their research careers. The degree of relevance to cancer research will be an important criterion for evaluation of projects for funding by CPRIT. Only one IIRA, IIRACB, IIRACCA, or IIRAP application per cycle is allowed.

The maximum amount that may be requested by applicants is \$300,000 in total costs per year for up to 3 years for research.

Applications will be accepted beginning at 7:00 a.m. Central Time on Monday, March 21, 2016, through 3:00 p.m. Central Time on Thursday, May 19, 2016. Only applications submitted via the CPRIT Application Receipt System (www.CPRITGrants.org) portal will be considered eligible for evaluation. CPRIT will not accept late applications or applications that are not submitted via the portal. A detailed Request for Applications (RFA) is available online at www.cprit.state.tx.us.

Individual Investigator Research Awards for Computational Biology

The Cancer Prevention and Research Institute of Texas (CPRIT) seeks applications from eligible organizations for the Individual Investigator Research Awards for Computational Biology for mathematical or computational research projects addressing questions that will advance our knowledge in any aspect of cancer. Applications may address any topic or issue related to cancer causation, identification of populations at risk, prevention, early progression, early detection, treatment, or outcomes. For example, research may address data analysis of cellular pathways, microarrays, cellular imaging, cancer imaging, or genomic, proteomic, and metabolomic databases. It may address descriptive mathematical models of cancer, as well as mechanistic models of cellular processes and interactions. Finally, it may also use artificial intelligence approaches to build new tools for mining cancer research and treatment databases. Partnering of computational scientists with cancer biologists or oncologists is highly recommended; a truly interdisciplinary team that addresses models that could become simulations of structure or pathway functional relationships and changes of these relationships over the disease progression is highly recommended. Successful applicants should be working in a research environment capable of supporting potentially high-impact studies in computational biology, biostatistics, and/or mathematics. Only one IIRA, IIRACB, IIRACCA, or IIRAP application per cycle is allowed.

Applicants may request a maximum of \$300,000 per year for a period of up to 3 years.

Applications will be accepted beginning at 7:00 a.m. Central Time on Monday, March 21, 2016, through 3:00 p.m. Central Time on Thurs-

day, May 19, 2016. Only applications submitted via the CPRIT Application Receipt System (www.CPRITGrants.org) portal will be considered eligible for evaluation. CPRIT will not accept late applications or applications that are not submitted via the portal. A detailed Request for Applications (RFA) is available online at www.cprit.state.tx.us.

Request for Proposals: Public Policy Fellows

The Texas Council for Developmental Disabilities (TCDD) announces the availability of funds for up to two organizations that will each hire a TCDD Public Policy Fellow and support the Fellow to develop a deep understanding of policy affecting people with developmental disabilities.

The purpose of offering funding for projects described in this Request for Proposals (RFP) is to increase the number of policy professionals in Texas who have the requisite skills, knowledge and experience to engage in policy activities so that people with developmental disabilities have greater control over their own lives.

TCDD has approved funding up to \$67,500 per organization, per year, for up to two years. Funds available for these projects are provided to TCDD by the U.S. Department of Health and Human Services, Administration on Intellectual and Developmental Disabilities, pursuant to the Developmental Disabilities Assistance and Bill of Rights Act. Funding for the project is dependent on the results of a review process established by TCDD and on the availability of funds. Non-federal matching funds of at least 10% of the total project costs are required for projects in federally designated poverty areas. Non-federal match-

ing funds of at least 25% of total project costs are required for projects in other areas.

Additional information concerning this RFP may be obtained at www.DDSuite.org. More information about TCDD may be obtained through TCDD's website at www.tcdd.texas.gov. All questions pertaining to this RFP should be directed in writing to Danny Fikac, Planning Specialist, via email at Danny.Fikac@tcdd.texas.gov. Mr. Fikac may also be reached by telephone at (512) 437-5415.

The proposed rulemaking would incorporate the EPA's latest finalized definition of volatile organic compounds, align the lead reporting threshold with the EPA's Annual Emissions Reporting Rule (AERR), change the distance from the shoreline to 9.0 nautical miles for applicable offshore sources to report an emissions inventory, and revise terminology and definitions for clarity or consistency with the EPA's AERR.

Notice of Public Meeting

AMENDED NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AN AIR QUALITY PERMIT

PROPOSED AIR QUALITY PERMIT NUMBERS: 121917 AND PSDTX1422

APPLICATION AND PRELIMINARY DECISION. Southern Power Company, PO Box 2641, Birmingham, AL 35202-2641, has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of Proposed Air Quality Permit 121917 and Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1422, which would authorize construction of the Jackson County Generating Facility at the property which is south of Lundquist Road at the intersection of Texas County Road 710 and Lundquist Road, Ganado, Jackson County, Texas 77962. This application was submitted to the TCEQ on July 14, 2014. The proposed facility will emit the following air contaminants in a significant amount: organic compounds, carbon monoxide, nitrogen oxides, and particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less. In addition, the facility will emit the following air contaminants: sulfur dioxide and sulfuric acid.

The degree of PSD increment predicted to be consumed by the proposed facility and other increment-consuming sources in the area is as follows:

PM₁₀

Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
24-hour	7.9	30
Annual	1.5	17

PM_{2.5}

Maximum Averaging Time	Maximum Increment Consumed (µg/m ³)	Allowable Increment (µg/m ³)
24-hour	8	9
Annual	1.5	4

The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Corpus Christi regional office, and at the Jackson County Memorial Library, 411 North Wells Street, Edna, Jackson County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Corpus Christi Regional Office, NRC Building Suite 1200, 6300 Ocean Drive, Unit 5839, Corpus Christi, Texas.

INFORMATION AVAILABLE ONLINE. These documents are accessible through the Commission's Web site at www.tceq.texas.gov/goto/cid: the executive director's preliminary

If the request is made by a group or association, one or more members who have standing to request a hearing and the interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.**

Notice of Public Meeting

Seven Total Maximum Daily Loads for Indicator Bacteria in Lake Houston, East Fork San Jacinto River, West Fork San Jacinto River, and Crystal Creek Watersheds

The Texas Commission on Environmental Quality (TCEQ or commission) has made available for public comment Seven Total Maximum Daily Loads (TMDLs) for Indicator Bacteria in Lake Houston, East Fork San Jacinto River, West Fork San Jacinto River, and Crystal Creek in Montgomery, San Jacinto, Grimes, Harris, Liberty, and Walker counties.

The purpose of the public meeting is to provide the public an opportunity to comment on the draft TMDLs for indicator bacteria in seven assessment units in Segments 1002, 1003, 1004 and 1004D in Montgomery, San Jacinto, Grimes, Harris, Liberty, and Walker counties, and the decision to join the implementation efforts of an approved, adjacent Implementation Plan (I-Plan).

A TMDL is a detailed water quality assessment that provides the scientific foundation to allocate pollutant loads in a certain body of water in order to restore and maintain designated uses. The purpose of the public meeting is to provide the public an opportunity to comment on the draft TMDLs. The commission requests comments on each of the major components of the TMDLs: problem definition, endpoint identification, source analysis, seasonal variation, linkage between sources and receiving waters, margin of safety, pollutant loading allocation, public participation, and implementation and reasonable assurances.

The Coordination Committee for this project petitioned to join the implementation efforts of the Bacteria Implementation Group (BIG), which has an approved I-Plan in a large area adjacent to these watersheds. On September 9, 2015, the BIG members voted unanimously to accept the addition of the TMDLs for Lake Houston, East Fork San Jacinto River, West Fork San Jacinto River, and Crystal Creek to

the area covered by the BIG I-Plan. The commission also requests comments on the decision to join the efforts of this existing I-Plan.

After the public comment period, the TCEQ may revise the draft TMDLs, if appropriate. The final TMDLs will then be considered by the commission for adoption. The commission will also consider approving the decision to join the existing BIG I-Plan. Upon adoption of the TMDLs by the commission, the final TMDLs and a response to all comments received will be made available on the TCEQ website. The TMDLs will then be submitted to the United States Environmental Protection Agency (EPA) Region 6 office for final action by the EPA. Upon approval by the EPA, the TMDLs will be certified as an update to the State of Texas Water Quality Management Plan.

The public comment meeting for the draft TMDLs will be held at 6:00 p.m. on Thursday, March 17, 2016 at the San Jacinto River Authority, 1577 Dam Site Road, 3rd floor, Conroe, Texas 77304.

At this meeting, individuals have the opportunity to present oral statements when called upon in order of registration. An agency staff member will give a brief presentation at the start of the meeting and will be available to answer questions before and after all public comments have been received.

Written comments on the draft TMDLs and the decision to join the existing BIG I-Plan should be submitted to Jason Leifester, Water Quality Planning Division, Texas Commission on Environmental Quality, MC 203, P.O. Box 13087, Austin, Texas, 78711-3087 or faxed to (512) 239-1414. Comments may be submitted electronically to www1.tceq.texas.gov/rules/ecomments/ by midnight on April 4, 2016, and should reference the *Seven Total Maximum Daily Loads for Indicator Bacteria in Lake Houston, East Fork San Jacinto River, West Fork San Jacinto River, and Crystal Creek Watersheds*.

For further information regarding the draft TMDLs and the decision to join the existing BIG I-Plan, please contact Jason Leifester at (512) 239-6457 or jason.leifester@tceq.texas.gov. Copies of the draft TMDLs will be available and can be obtained via the commission's website at: www.tceq.texas.gov/waterquality/tmdl/tmdlnews.html or by calling (512) 239-6682.

Persons with disabilities who have special communication or other accommodation needs who are planning to attend the meeting should contact the commission at (512) 239-6682. Requests should be made as far in advance as possible.

Texas Health and Human Services Commission

Public Notice

The Texas Health and Human Services Commission (HHSC) is submitting to the Centers for Medicare & Medicaid Services (CMS) a request for an amendment to the Home and Community based-Services Program (HCS) waiver program, a waiver implemented under the authority of section 1915(c) of the Social Security Act. CMS has approved this waiver through August 31, 2018. This notice amends the previous notice posted on February 12, 2016. The proposed effective date for the amendment is September 1, 2015, with no changes to cost neutrality.

This amendment request proposes to make the following changes:

Appendix C-1/C-3 Dental Treatment and Appendix J - The General Appropriations Act (House Bill 1), 84th Regular Session, 2015 adds additional funds to increase the service limit for dental treatment from \$1,000 during an individual plan of care (IPC) year to \$2,000 during an IPC year. The service limit will be increased for Waiver Years 3, 4 and 5.

Appendix C-1/C-3 Prescribed Drugs (Extended State Plan Service) and Appendix J - Prescribed Drugs (Extended State Plan Service) The waiver is being changed to clarify eligibility for prescription drugs through the HCS waiver program. As a result of the transition from the fee-for-service delivery method to the managed care delivery method, effective September 1, 2014, individuals in the waiver who are enrolled in managed care for their acute care services receive unlimited prescription medications through managed care and therefore do not qualify for prescriptions through the waiver. Dual eligible individuals are excluded from enrollment into managed care and, thus, are still eligible for prescription medications through the waiver if they exhaust non-HCS waiver resources first (such as the Medicare Prescrip-

tion Drug Plan and the Texas Medicaid State Plan resources). The acute versus waiver dollars for prescriptions will be revised to better reflect the source of funding for prescription costs.

The HCS waiver provides services and supports to persons with intellectual disabilities who live in their own homes or family homes, or in community settings such as small group homes. To be eligible for the waiver, individuals must meet financial eligibility criteria as well as level of care for admission to an intermediate care facility for individuals with intellectual disabilities.

An individual may obtain a free copy of the proposed waiver amendment, including the HCS settings transition plan, or may ask questions, request additional information, or submit comments regarding this amendment or the HCS settings transition plan, by contacting Jacqueline Pernell by mail at Texas Health and Human Services Commission, P.O. 2.0 Determination of Prize Winners. The determination of prize winners is subject to the general Scratch Ticket validation requirements set forth in Texas Lottery Rule §401.302, Instant Game Rules, these Game Procedures, and the requirements set out on the back of each Scratch Ticket. A prize winner in the "CASHWORD MULTIPLIER" Scratch Ticket Game is determined once the latex on the Scratch Ticket is scratched off to expose 312 (three hundred twelve) possible Play Symbols. The player must scratch all the YOUR 20 LETTERS. Then the player must scratch all of the letters found in GAME 1, GAME 2 and GAME 3 that exactly match the YOUR 20 LETTERS. If a player has scratched at least 3 complete WORDS within a GAME, the player wins the prize found in the corresponding PRIZE LEGEND. Each GAME is played separately. WORDS revealed in one GAME cannot be combined with WORDS revealed from another GAME. Only one prize paid per GAME. Only letters within the same GAME that are matched with the YOUR 20 LETTERS can be used to form a complete WORD. MULTIPLIER BONUS: If a player reveals a 2X, 3X, 4X, 5X or 10X Symbol, then the player multiplies the total prize won in GAMES 1, 2 and 3 by that amount.
