APPLICATION. Green Valley Special Utility District, P.O. Box 99, Marion, Texas 78124, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015360001, to authorize the discharge of treated domestic wastewater at an annual average flow not to exceed 5,000,000 gallons per day.

The facility will be located at 3930 Linne Road, Seguin, in Guadalupe County, Texas 78155. The treated effluent will be discharged to Santa Clara Creek; thence to Lower Cibolo Creek in Segment No. 1902 of the Guadalupe River Basin. The unclassified receiving water use is high aquatic life use for Santa Clara Creek. The designated uses for Segment No. 1902 are high aquatic life use and primary contact recreation. In accordance with 30 Texas Administrative Code Section 307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Santa Clara Creek, which has been identified as having high aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not

Request for Scopes of Work for Natural Resource Restoration Projects in Northeast and East Texas

The Texas Natural Resource Trustees, comprising of the Texas Commission on Environmental Quality, Texas Parks & Wildlife Department, Texas General Land Office, and U.S. Fish and Wildlife Service on behalf of the U.S. Department of the Interior (the Trustees), are seeking scopes of work on projects that will restore, rehabilitate, or conserve forested riparian, bottomland hardwoods, aquatic, and/or wetland habitats in portions of northeast and east Texas.

The Trustees have recovered approximately \$21 million through a legal settlement of natural resource damages associated with releases of hazardous substances at or from the former Kerr-McGee Chemical Corporation wood treatment facility (the Facility) in Texarkana, Bowie County, Texas. The releases of polycyclic aromatic hydrocarbons, pentachlorophenol, and arsenic to surface soils and shallow groundwater at the Facility and to the sediments of Waggoner, Days, and Howard Creeks resulted in injury and losses of ecological services to the sediments, benthic organisms, and associated aquatic biota in these systems.

Under Section 107(f) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 United States Code, §9607(f), the settlement funds may only be used to restore, rehabilitate, replace, or acquire the equivalent of the natural resources injured as a result of these releases. In this case, the Trustees are seeking scopes of work on potential projects that will provide direct and significant ecological benefits to forested riparian, bottomland hardwoods, aquatic, and/or wetland habitats within the following counties: Anderson, Angelina, Bowie, Camp, Cass, Cherokee, Delta, Franklin, Gregg, Hardin, Harrison, Henderson, Hopkins, Houston, Jasper, Lamar, Marion, Morris, Nacogdoches, Newton, Panola, Polk, Rains, Red River, Rusk, Sabine, San Augustine, Shelby, Smith, Titus, Trinity, Tyler, Upshur, Van Zandt, and Woods.

In particular, the Trustees are seeking projects that: provide direct ecological benefits to forested riparian, bottomland hardwoods, aquatic, and/or wetland habitats in the identified geographic area; are technically feasible; deliver benefits cost-effectively; have a reasonable probability of success; provide measurable results; avoid collateral injury to natural resources; do not adversely impact human health and safety, and are compatible with the remediation process; are consistent with federal, state, or local laws, regulations, or policies; and are not already required by existing laws, regulations, permits, settlements, or enforcement orders, including anticipated requirements such as mitigation requirements of draft permits unrelated to this request for scopes of work.

In addition, restoration activities must have the potential to be protected in perpetuity for conservation purposes by a legal mechanism such as a conservation easement.

The Trustees will review submitted project ideas and may request further, detailed proposals for inclusion as restoration alternatives in a draft Restoration Plan that will be developed pursuant to 43 Code of Federal Regulations §11.81. This draft Restoration Plan, which is subject to a 30-day public review and comment period, will describe how the Trustees will use the settlement funds to restore, rehabilitate, replace, or acquire the equivalent of the natural resources injured as a result of the releases at the Facility. Projects submitted in response to

this request may require modification to fit the requirements and needs of the Trustees prior to inclusion into the Restoration Plan or implementation.

Project information must be submitted to Michael Smith of the Texas Commission on Environmental Quality via email at michael.smith@tceq.texas.gov or by mail at MC-136, P.O. Box 13087, Austin, Texas 78711-3087 by May 6, 2016. Submissions to the Trustees will be considered a matter of public record and releasable under the Texas Public Information Act and the federal Freedom of Information Act. Submissions should include the following information to the extent known:

1. Project title
2. Project location (including GPS centerpoint)
3. Estimated project costs and budget (as detailed as possible)
4. Additional funding sources (anticipated source and amount, if applicable)
5. Proposed project implementation period
6. Status of project engineering and design, including permitting requirements
7. Project lead agency/organization
8. Partner organizations (if applicable)
9. Brief narrative including a detailed project description, including: types of project activities to be completed (i.e., construction, preservation, etc.); natural resources and acreages that will benefit from the project; and lifespan of the project.

The hearing will be held in compliance with Texas Human Resources Code §32.0282 (relating to public hearing on rates) and 1 Texas Administrative Code (TAC) §355.201 (relating to establishment and adjustment of reimbursement rates by HHSC), which require public notice of and hearings on proposed Medicaid reimbursements. Methodology and Justification. HHSC calculated the proposed payment rates in accordance with the rate setting methodologies codified in 1 TAC §355.9070 (relating to reimbursement methodology for the Home and Community-Based Services - Adult Mental Health Program).

Public Notice: Amendment to Reimbursement Methodology for Program for All-Inclusive Care for the Elderly (PACE)

The Texas Health and Human Services Commission announces its intent to submit transmittal number 16-0006 to the Texas State Plan for Medical Assistance, under Title XIX of the Social Security Act.

The purpose of this amendment is first to align the State Plan language with the shift from a fee-for-service payment system to a managed care payment system. The amendment will thus adjust the underlying methodology and the data sources for determining Program for All Inclusive Care for the Elderly (PACE) reimbursement. Second, the proposed language implements new requirements for reimbursement methodology set out in House Bill 3823, 84th Texas Legislature, Regular Session, which is codified at Texas Human Resources Code §§32.0532 through 32.0534. The proposed amendment is effective March 1, 2017.

The methodology is being adjusted as a result of the shift from using fee-for-service data to using primarily managed care data. Such a shift in the data will result in a lower level of reimbursement for the PACE sites, and, as an offset to this change, the methodology is being adjusted from using a reduction factor no greater than 0.95, to using a reduction factor which is less than 1.0.

Other changes to the methodology include those required by House Bill 3823. The new law requires that reimbursement rates for providers under the program are adequate to sustain the program; and that the program is cost-neutral or costs less when compared to the cost to serve a population in the STAR + PLUS Medicaid managed care program that is comparable in age; and eligibility factors, including income level, health status, and impairment level; geographic location; living environment; and other factors HHSC determines to be necessary.

The proposed amendment is estimated to have no fiscal impact. An adjustment in the reimbursement methodology to reduce the savings factor applied is expected to minimize the effects of the movement to managed care data. Additionally, the provisions set out in House Bill

3823 could cause reimbursement to increase for some PACE sites, but to decrease for others. The net effect is unknown but is expected to be close to \$0.00.

To obtain copies of the proposed amendment, interested parties may contact J.R. Top, State Plan Coordinator, by mail at the Health and Human Services Commission, P.O. Box 13247, Mail Code H-600, Austin, Texas 78711; by telephone at (512) 462-6397; by facsimile at (512) 730-7472; or by e-mail at *jr.top@hhsc.state.tx.us*. Copies of the proposal will also be made available for public review at the local offices of the Texas Department of Aging and Disability Services.

Public Notice - Waiver Amendment to the Youth Empowerment Services (YES) Program

The Texas Health and Human Services Commission (HHSC) is submitting to the Centers for Medicare and Medicaid Services (CMS) a request for an amendment to the YES waiver program, a waiver implemented under the authority of §1915(c) of the Social Security Act. The Centers for Medicare and Medicaid Services has approved this waiver through March 31, 2018. The proposed effective date for the amendment is July 10, 2016, with no changes to cost neutrality.

This amendment request proposes to make the following changes:

1. Main - Expand the population of children and adolescents served through the Youth Empowerment Services (YES) Waiver to include children and adolescents who are in conservatorship of the state.
2. Appendix B - Remove the limitation on the number of participants served at any point in time during the waiver year.
3. Appendix B - Add a reserved waiver capacity group. The reserve capacity group will reserve slots for children and adolescents who are at imminent risk of relinquishment to the state.
4. Appendix B and Appendix J - Increase the maximum number of unduplicated count of participants (Factor C) for waiver years 4 and 5.
5. Appendix J - Update estimate of Factor D for waiver years 4 and 5.

The YES waiver program, which the Department of State Health Services (DSHS) operates under HHSC's authority, is designed to provide home and community-based services to children with serious emotional disturbances and their families, with a goal of reducing or preventing children's inpatient psychiatric treatment and the consequent removal from their families. The waiver is currently approved to serve up to 1,300 eligible children who are at least age 3 but under age 19 and who are predicted to remain in the waiver for 12 months.

An individual may obtain a free copy of the proposed waiver amendment, including the YES settings transition plan, or may ask questions, request additional information, or submit comments regarding this amendment or the YES settings transition plan, by contacting Jacqueline Pernel by mail at Texas Health and Human Services Commission, PO Box 13247, Mail Code H-600, Austin, Texas 78711-3247, phone (512) 428-1931, fax (512) 730-7477, or by email at *TX_Medicaid_Waivers@hhsc.state.tx.us*.

In addition, the HHSC local eligibility offices will post this notice for 30 days. The complete waiver amendment request can be found online on the DSHS website at <https://www.dshs.state.tx.us/mhsa/yes/>.

Public Notice - Enforcement Plan

The Texas Commission of Licensing and Regulation (Commission) provides this public notice that at their regularly scheduled meeting held January 6, 2016, the Commission adopted the Texas Department of Licensing and Regulation's (Department) revised enforcement plan which was established in compliance with Texas Occupations Code, §51.302(c).

The enforcement plan gives all license holders notice of the specific ranges of penalties and license sanctions that apply to specific alleged violations of the statutes and rules enforced by the Department. The enforcement plan also presents the criteria that are considered by the Department's Enforcement staff in determining the amount of a proposed administrative penalty or the magnitude of a proposed sanction. The enforcement plan is revised to update the penalty matrix for the Elevators, Escalators, and Related Equipment program.

The revised matrix was updated to bring the violations and citations in-line with Texas Health and Safety Code, Chapter 754 and 16 Texas Administrative Code, Chapter 74. The statute has been amended several times, however the most significant changes incorporate increased safety responsibility of elevator owners, contractors and inspectors. This includes reducing the time limits for filing annual inspections and reporting accidents, continuing education requirements for inspectors and plan review requirements for new installations or alterations. Generally, the rules have been amended to incorporate statutory changes. Specific rule changes increased regulation on reporting requirements, equipment removed from service, plan reviews, necessary documentation and equipment testing. Editorial changes were made by adding subject matter headings to each class to make it easier to find a particular violation; correcting legal citations to correspond with the statute; and general language cleanup to improve language consistency and clarity.

The Elevator Advisory Board recommended approval of the revised matrix at their meeting held December 15, 2015. The revised matrix was presented to the Commission on January 6, 2016, and was adopted as recommended.

A copy of the revised enforcement plan is posted on the Department's website and may be downloaded at www.tdlr.texas.gov. You may also

contact the Enforcement Division at (512) 539-5600 or by e-mail at *enforcement@tdlr.texas.gov* to obtain a copy of the revised plan.

In the event the Texas Lottery Retailer cannot verify the claim, the Texas Lottery Retailer shall provide the claimant with a claim form

and instruct the claimant on how to file a claim with the Texas Lottery. If the claim is validated by the Texas Lottery, a check shall be forwarded to the claimant in the amount due. In the event the claim is not validated, the claim shall be denied and the claimant shall be notified promptly. A claimant may also claim any of the above prizes under the procedure described in Section 2.3.B and Section 2.3.C of these Game Procedures.

When paying a prize of \$600 or more, the Texas Lottery shall file the appropriate income reporting form with the Internal Revenue Service (IRS) and shall withhold federal income tax at a rate set by the IRS if required. In the event that the claim is not validated by the Texas Lottery, the claim shall be denied and the claimant shall be notified promptly.

C. As an alternative method of claiming a "TEXAS RANGERS™" Scratch Ticket Game prize, the claimant must sign the winning Scratch Ticket, thoroughly complete a claim form, and mail both to: Texas Lottery Commission, P.O. Box 16600, Austin, Texas 78761-6600. The Texas Lottery is not responsible for Scratch Tickets lost in the mail. In the event that the claim is not validated by the Texas Lottery, the claim shall be denied and the claimant shall be notified promptly.

A. if a dispute occurs, or it appears likely that a dispute may occur, regarding the prize;

B. if there is any question regarding the identity of the claimant;

C. if there is any question regarding the validity of the Scratch Ticket presented for payment; or

D. if the claim is subject to any deduction from the payment otherwise due, as described in Section 2.3.D of these Game Procedures. No liability for interest for any delay shall accrue to the benefit of the claimant pending payment of the claim.

When a signature is placed on the back of the Scratch Ticket in the space designated, the player whose signature appears in that area shall be the owner of the Scratch Ticket and shall be entitled to any prize attributable thereto. Notwithstanding any name or names submitted on a claim form, the Executive Director shall make payment to the player whose signature appears on the back of the Scratch Ticket in the space designated. If more than one name appears on the back of the Scratch Ticket, the Executive Director will require that one of those players whose name appears thereon be designated by such players to receive payment.

B. The Texas Lottery shall not be responsible for lost or stolen Scratch Tickets and shall not be required to pay on a lost or stolen Scratch Ticket.

When a signature is placed on the back of the Scratch Ticket in the space designated, the player whose signature appears in that area shall be the owner of the Scratch Ticket and shall be entitled to any prize attributable thereto. Notwithstanding any name or names submitted on a claim form, the Executive Director shall make payment to the player whose signature appears on the back of the Scratch Ticket in the space designated. If more than one name appears on the back of the Scratch Ticket, the Executive Director will require that one of those players whose name appears thereon be designated by such players to receive payment.

QUESTIONS

In addition to comments on Lubbock Power & Light's proposal generally, commission staff seeks comments on the following possible issues. Commission staff's list of possible issues is not intended to be comprehensive. Commission staff requests that commenters identify issues in addition to the possible issues identified by commission staff below.

Transmission Service Provider Selection

1. How should the transmission service providers for the transmission facilities that would be needed to interconnect Lubbock Power & Light (LP&L or Lubbock) to the Electric Reliability Council of Texas (ERCOT) be selected?

Overall Evaluation

2. Would making LP&L part of ERCOT be in the public interest?
3. Would the benefits of LP&L becoming part of ERCOT exceed the costs of LP&L becoming part of ERCOT?
4. What is the impact on production costs for both ERCOT and the Southwest Power Pool (SPP)?
5. What is the impact on ancillary service costs for both ERCOT and SPP?
6. What is the impact on transmission costs for SPP?
7. What is the impact on reliability for both ERCOT and SPP?
8. Are there any future projects avoided due to the Lubbock integration into ERCOT?
9. What is the impact of integrating the Lubbock footprint on the capacity, demand, and reserve margins for ERCOT and SPP?
10. Who is responsible for the costs of disconnecting LP&L from SPP and interconnecting into ERCOT?
11. For any transmission facilities that LP&L constructs to interconnect LP&L with ERCOT, should LP&L be required to forego inclusion of any of those costs in its wholesale transmission rates? If so, how much?
12. For any transmission facilities that Transmission Service Providers other than LP&L construct to interconnect LP&L with ERCOT, should LP&L be required to make contributions in aid of construction for those interconnecting transmission facilities and forego inclusion of any of those costs in its wholesale transmission rates? If so, how much?

13. What is the impact on Congestion Revenue Rights for ERCOT and Transmission Congestion Rights for SPP?

14. What would the integration impact be for storm hardening and storm recovery and reliability for both Lubbock and surrounding areas?

15. In addition to LP&L, which utilities, if any, in Texas that are currently in SPP want to become part of ERCOT? Should the possible interconnection of these utilities to ERCOT be included in the evaluation of interconnecting LP&L to ERCOT? Are any utilities harmed by remaining in SPP?

16. How would the commission's jurisdiction of Lubbock change post-integration?

17. What is the timeline for integrating LP&L into ERCOT's operations and market systems and are there any milestones to determine rate of completion?

18. What is the timeline for regulatory filings in Texas and other jurisdictions?

19. What is the cost of integrating the remaining 170MW load into ERCOT and are any additional benefits accrued? What would be the costs and benefits of maintaining systems in both SPP and ERCOT should the remaining 170MW load remain in SPP?

20. Changes made to the transmission system as part of the process of integrating LP&L into ERCOT may provide new opportunities for wind developers. What impact, if any, will increased wind power penetration have on consumers in ERCOT and on the ERCOT system?

Studies

21. What studies should ERCOT perform?

22. What studies should SPP perform?

Benefits

23. What would be the benefits of LP&L becoming part of ERCOT? Please quantify the benefits to the extent quantification is possible.

Costs

24. What would be the costs of LP&L becoming part of ERCOT?

25. What are the ERCOT transmission capital costs net of synchronous condensers?

26. What are the costs to disconnect Lubbock from SPP?
