Texas Education Agency

Request for Applications Concerning the 2016-2017 Support for Texas Students of US Military Personnel Grant

Filing Date. May 3, 2016

Filing Authority. The availability of grant funds under Request for Applications (RFA) #701-16-104 is authorized by the General Appropriations Act, Article III, Rider 38, 84th Texas Legislature, 2015.

Eligible Applicants. The Texas Education Agency (TEA) is requesting applications under Request for Applications (RFA) #701-16-104 from all nonprofit organizations, institutions of higher education, individuals, and private companies. To be eligible for the 2016-2017 Support for Texas Students of US Military Personnel grant, the eligible entity must have a strong background in working on military-related educational issues and demonstrate its capacity to remove barriers to educational success imposed on children of military families due to the frequent moves and deployment of their parents. This project specifically recognizes the unique needs of students who are the children of active-duty United States military personnel.

Description. The 2016-2017 Support for Texas Students of US Military Personnel grant will provide resources and technical assistance to school districts and charter schools to assist Texas students who are the children of active-duty members of the United States military in their educational pursuits. The grant recipient will need to address key educational transition issues encountered by students of military families, including enrollment, placement, attendance, eligibility, testing, and graduation. This will require the completion of a comprehensive educational needs assessment of Texas students who are the children of active-duty United States military personnel, including, but not limited to, needs associated with moving to different schools when the active-duty parent receives new orders. The applicant must develop an action plan, including timeline and metrics, to efficiently use the

project funds to meet needs determined in the needs assessment. The action plan must include appropriate stakeholder training for school personnel (counselors, teachers, and principals) and military parents and strategies to reduce barriers and facilitate achievement among military children by tackling issues such as placement, transfer of records, access to special programs, and on-time graduation. Additionally, the applicant must identify the most effective uses of Internet-based technologies to create a single resource to help students and their families obtain information that will assist with transition to a Texas public or charter school and create welcoming environments in schools for this population.

Dates of Project. The 2016-2017 Support for Texas Students of US Military Personnel grant will be implemented beginning in the 2016-2017 school year. Applicants should plan for a starting date of no earlier than July 25, 2016, and an ending date of no later than August 31, 2017.

Project Amount. Approximately \$500,000 is available in state funds for the 2016-2017 Support for Texas Students of US Military Personnel grant. This project is funded 100 percent from state funds.

Selection Criteria. Applications will be selected based on the ability of each applicant to carry out all requirements contained in the RFA. Reviewers will evaluate applications based on the overall quality and validity of the proposed grant programs and the extent to which the applications address the primary objectives and intent of the project. Applications must address each requirement as specified in the RFA to be considered for funding. TEA reserves the right to select from the highest-ranking applications those that address all requirements in the RFA.

Further Information. For clarifying information, contact Jessica Snyder, Division of Curriculum, Texas Education Agency, (512) 463-9581. In order to assure that no prospective applicant may obtain a competitive advantage because of acquisition of information unknown to other prospective applicants, any and all questions must be submitted in writing to the TEA contact persons identified in the Program Guidelines of the RFA. All questions and the written answers thereto will be posted on the TEA website in the format of Frequently Asked Questions (FAQs) at <http://burleson.tea.state.tx.us/GrantOpportunities/forms>. In the "Select Search Options" box, select the name of the RFA from the dropdown list. Scroll down to the "Application and Support Information" section to view all documents that pertain to this RFA.

Deadline for Receipt of Applications. Applications must be received in the TEA Document Control Center by 5:00 p.m. (Central Time), June 3, 2016, to be eligible to be considered for funding.

The draft update includes projected effluent limits of specific domestic dischargers, which may be useful for planning in future permit actions. The draft update may also contain service area populations for listed wastewater treatment facilities, designated management agency information, and total maximum daily load (TMDL) revisions.

Once the commission certifies a WQMP update, it is submitted to the United States Environmental Protection Agency (EPA) for approval. For some Texas Pollutant Discharge Elimination System (TPDES) permits, the EPA's approval of a corresponding WQMP update is a necessary precondition to TPDES permit issuance by the commission.

Public Notice: More Liberal Methods of Treating Income under §1902(r)(2) of the Act

The Texas Health and Human Services Commission announces its intent to submit transmittal number 16-0003 to the Texas State Plan for Medical Assistance, under Title XIX of the Social Security Act.

The purpose of this amendment is to exclude certain amounts held in school-based savings accounts and interest earned on the accounts when determining eligibility for Medicaid Eligibility for the Elderly and People with Disabilities (MEPD) and Medically Needy with Spend Down (MNSD) programs. The proposed amendment is effective August 1, 2016.

The proposed amendment is estimated to have no fiscal impact. The addition of excluding amounts held in school-based savings accounts and the interest earned on such accounts in determining eligibility is not expected to increase Medicaid utilization or cost because it is an optional program for school districts to implement.

To obtain copies of the proposed amendment, interested parties may contact J.R. Top, State Plan Coordinator, by mail at the Health and Human Services Commission, P.O. Box 13247, Mail Code H-600, Austin,

Notice of Request for Proposal - Parking and Transportation Services

The University of Houston System announces a Request for Proposal (RFP) for consultant services pursuant to Government Code, Chapter 2254, Subchapter B.

RFP730-16112, Business and Service Review of Parking & Transportation Services

Purpose:

The University invites you to submit a proposal for services to include providing: (a) an independent, comprehensive evaluation of campus, self-operated Parking & Transportation Services; (b) guidance and assistance in any potential service and technology enhancements related to Parking and Transportation Services; (c) guidance to the university regarding the business operations of Parking & Transportation Services; (d) vehicular traffic analysis and management, including review of large event parking and mobility; (e) development of annual departmental performance benchmarks to evaluate annual performance; (f) development of a comprehensive five year business plan and pro forma for the business operation; and (g) recommendations to the university for contract, financial, operational, and management policies, procedures, or systems, including but not limited to the privatization in whole or part of any of its Parking and Transportation Services.

Eligible Applicants:

Consulting firms with related knowledge and experience in:

- Providing general assessments and recommendations for parking and transportation services, including: technology enhancements; current business and operational practices; potential privatization, in whole or part of any of its services; parking and vehicular mobility for large events for clients of similar size and type as the University of Houston.

- Assisting clients in the improvement of its parking and transportation operations.

Services to be performed:

Development of overall schedule to complete activities associated with this proposal.

Review current Parking and Transportation Services operations and provide narrative recommendations for improvement.

Provide the university with a recommendation about potential out-sourcing of any of its parking and transportation services, in whole or part.

Develop a five-year business plan and pro forma for the operation.

Review of current parking and transportation policies and procedures and provide recommendations for improvement.

Review of current staffing levels and incumbents and narrative recommendations for improvement.

Review traffic and vehicular mobility, in particular for large events, and make recommendations.

Development of departmental performance benchmarks that will be used to assess annual performance of Parking and Transportation Services.

Recommendations of improvements in technology and/or contracts that will enhance the overall performance of Parking and Transportation Services.

Finding by Chief Executive Officer, Renu Khator:

As the campus has grown substantially over the past eight years and with the addition of a large residential population, it has been determined that a comprehensive review of Parking and Transportation Services on our campus is necessary. This evaluation will help the university implement best practices from across the country in ensuring that this department is operating efficiently and effectively.

Additionally, this review will provide insight as to whether there are further opportunities to privatize any or all of its services. I have found the expertise to engage in this comprehensive review does not exist at the University; therefore, it is necessary to engage a consultant to complete this review.

Review and Award Criteria:

All proposals will be evaluated by appointed representatives of the University in accordance with the following procedures:

1. Purchasing will receive and review each RFP proposal to ensure it meets the requirements of the RFP. Qualified proposals will be given to the selection committee.
2. Each member of the selection committee will independently evaluate the qualified proposals according to the criteria in section IX of the RFP, except for price, and send their evaluations to Purchasing. Price will be evaluated by Purchasing.
3. Purchasing will combine the committee's scores to determine which proposal received the highest combined score.

4. Purchasing will notify the respondent with the highest score that the University intends to contract with them.

2.6 If a person under the age of 18 years is entitled to a cash prize of \$600 or more from the "SPICY 9'S" Scratch Ticket Game, the Texas Lottery shall deposit the amount of the prize in a custodial bank account, with an adult member of the minor's family or the minor's guardian serving as custodian for the minor.

2.7 Scratch Ticket Claim Period. All Scratch Ticket prizes must be claimed within 180 days following the end of the Scratch Ticket Game or within the applicable time period for certain eligible military personnel as set forth in Texas Government Code §466.408. Any rights to a prize that is not claimed within that period, and in the manner specified in these Game Procedures and on the back of each Scratch Ticket, shall be forfeited.

2.8 Disclaimer. The number of prizes in a game is approximate based on the number of Scratch Tickets ordered. The number of actual prizes available in a game may vary based on number of Scratch Tickets manufactured, testing, distribution, sales and number of prizes claimed. A Scratch Ticket Game may continue to be sold even when all the top prizes have been claimed.

3.0 Scratch Ticket Ownership.

A. Until such time as a signature is placed upon the back portion of a Scratch Ticket in the space designated, a Scratch Ticket shall be owned by the physical possessor of said Scratch Ticket. Request for Qualifications

Pursuant to the authority granted under Transportation Code, Chapter 223, Subchapter F (enabling legislation), the Texas Department of Transportation (department), may enter into, in each fiscal year, up to three design-build contracts for the design, construction, expansion, extension, maintenance, rehabilitation, alteration, or repair of a highway project with a construction cost estimate of \$150 million or more. The enabling legislation authorizes private involvement in design-build projects and provides a process for the department to solicit proposals for such projects. Transportation Code §223.245 prescribes requirements for issuance of a request for qualifications and requires the department to publish a notice of such issuance in the *Texas Register*. The Texas Transportation Commission (commission) adopted Texas Administrative Code, Title 43, Chapter 9, Subchapter I relating to design-build contracts (the "rules"). The enabling legislation, as well as the rules, govern the submission and processing of qualifications submittals, and provide for the issuance of a request for qualifications that sets forth the basic criteria for qualifications, experience, technical competence, and ability to develop a proposed project and such other information the department considers relevant or necessary.

The commission has authorized the issuance of a request for qualifications (RFQ) to design, develop, construct, and potentially maintain the Southern Gateway Project (Project) consisting of improvements to I-35 E from south of the I-35 E/US 67 interchange to Colorado Boulevard, with transition work extending north to Reunion Boulevard, and improvements to US 67 from the I-35 E/US 67 interchange to I-20 pursuant to a Design-Build Contract. The Southern Gateway Project to be constructed under the agreement will provide increased capacity through the addition of general purpose lanes along with non-tolled managed express lanes, and has an estimated design build cost of approximately \$625 million.

Through this notice, the department is seeking qualifications submittals (QS) from teams interested in entering into a design-build contract. The department intends to evaluate any QS received in response to the RFQ and may request submission of detailed proposals, potentially leading to the negotiation, award, and execution of a design-build contract. The department will accept for consideration any QS received in accordance with the enabling legislation, the rules, and the RFQ, on or before the deadline in this notice. The department anticipates issuing the RFQ, receiving and analyzing the QS, developing a shortlist of proposing entities or consortia, and issuing a request for proposals (RFP) to the shortlisted entities. After review and a best value evaluation of the responses to the RFP, the department may negotiate and enter into a design-build contract for the project.

RFQ Evaluation Criteria. QSs will be evaluated by the department for shortlisting purposes using the following general criteria: qualifications and experience, statement of technical approach, and safety qualifications. The specific criteria under the foregoing categories will be identified in the RFQ, as will the relative weighting of the criteria.

Release of RFQ and Due Date. The department currently anticipates that the RFQ will be available on May 13, 2016. Copies of the RFQ will be available at the Texas Department of Transportation, 4777 East Highway 80, Mesquite, Texas 75150-6643, or at the following website:

<http://www.txdot.gov/inside-txdot/division/strategic-projects/partnerships/southern-gateway/rfq.html>

QSs will be due by 12:00 p.m. CDT on June 30, 2016 at the address specified in the RFQ.
