Correction of Error

The Texas Department of Licensing and Regulation adopted new 16 TAC Chapter 115, concerning Midwives, in the June 17, 2016, issue of the *Texas Register* (41 TexReg 4477). Due to a Texas Register editing error, the wrong text for new §115.112 was published on page 4481. Paragraph (3)(A) - (C) should not have been included in the adopted rule. The corrected rule reads as follows:

§115.112. Termination of the Midwife-Client Relationship.

A midwife shall terminate care of a client only in accordance with this section unless a transfer of care results from an emergency situation.

(1) Once the midwife has accepted a client, the relationship is ongoing and the midwife cannot refuse to continue to provide midwifery care to the client unless:

- (A) the client has no need of further care;
- (B) the client terminates the relationship; or
- (C) the midwife formally terminates the relationship.

(2) The midwife may terminate care for any reason by:

- (A) providing a minimum of 30 days written notice, during which the midwife shall continue to provide midwifery care, to enable the client to select another health care provider;
- (B) making an attempt to tell the client in person and in the presence of a witness of the midwife's wish to terminate care;

University of Houston System

Business and Service Review of Parking and Transportation Services

The University of Houston System announces a Request for Proposal (RFP) for consultant services pursuant to Government Code, Chapter 2254, Subchapter B.

RFP730-16144 (Rebid), Business and Service Review of Parking & Transportation Services

Purpose:

The University invites you to submit a proposal for services to include providing: (a) an independent, comprehensive evaluation of campus, self-operated Parking & Transportation Services; (b) guidance and assistance in any potential service and technology enhancements related to Parking and Transportation Services; (c) guidance to the university regarding the business operations of Parking & Transportation Services; (d) vehicular traffic analysis and management, including review of large event parking and mobility; (e) development of annual departmental performance benchmarks to evaluate annual performance; (f) development of a comprehensive five year business plan and pro forma for the business operation; and (g) recommendations to the university for contract, financial, operational, and management policies, procedures, or systems, including but not limited to the privatization in whole or part of any of its Parking and Transportation Services.

Eligible Applicants:

Consulting firms with related knowledge and experience in:

- Providing general assessments and recommendations for parking and transportation services, including: technology enhancements; current business and operational practices; potential privatization, in whole or part of any of its services; parking and vehicular mobility for large events for clients of similar size and type as the University of Houston.
- Assisting clients in the improvement of its parking and transportation operations.

Services to be performed:

Development of overall schedule to complete activities associated with this proposal.

Review current Parking and Transportation Services operations and provide narrative recommendations for improvement.

Provide the university with a recommendation about potential out-sourcing of any of its parking and transportation services, in whole or part.

Develop a five-year business plan and pro forma for the operation.

Review of current parking and transportation policies and procedures and provide recommendations for improvement.

Review of current staffing levels and incumbents and narrative recommendations for improvement.

Review traffic and vehicular mobility, in particular for large events, and make recommendations.

Development of departmental performance benchmarks that will be used to assess annual performance of Parking and Transportation Services.

Recommendations of improvements in technology and/or contracts that will enhance the overall performance of Parking and Transportation Services.

Finding by Chief Executive Officer, Renu Khator:

As the campus has grown substantially over the past eight years and with the addition of a large residential population, it has been determined that a comprehensive review of Parking and Transportation Services on our campus is necessary. This evaluation will help the university implement best practices from across the country in ensuring that this department is operating efficiently and effectively.

Additionally, this review will provide insight as to whether there are further opportunities to privatize any or all of its services. I have found the expertise to engage in this comprehensive review does not exist at the University; therefore, it is necessary to engage a consultant to complete this review.

Review and Award Criteria:

All proposals will be evaluated by appointed representatives of the University in accordance with the following procedures:

1. Purchasing will receive and review each RFP proposal to ensure it meets the requirements of the RFP. Qualified proposals will be given to the selection committee.
2. Each member of the selection committee will independently evaluate the qualified proposals according to the criteria in section IX of the RFP, except for price, and send their evaluations to Purchasing. Price will be evaluated by Purchasing.
3. Purchasing will combine the committee's scores to determine which proposal received the highest combined score.

4. Purchasing will notify the respondent with the highest score that the University intends to contract with them.

Deadlines: UH must receive proposals according to instructions in the RFP package on or before August 15, 2016 at 11:00 a.m. (CDT).
